Polo Grounds, Oct. 7.—Coming suddenly to life after a forty-eight-hour trance, the Giants of John McGraw rose up and battered the cocky New York Yankees almost to a pulp in the third game of the world series here this afternoon.

Awakening with murder in their eyes the National League champions slew four Yankee pitchers and won in the rout by the score of 13 to 5.

It took a Yankee rally in the third when the American champions scored four runs to break the spell under which McGraw lost the first two games of the series without a run. Jess Barnes the frail right hander who had been lost to the rescuers just a few minutes before in the ponderous Fred Toney, had been knocked out of the box, starting the festivities which brought out the previously paralyzed power in the Giant batbag.

LLOYD GEORGE WILL NOT ATTEND ARMS CONFERENCE

**GREAT BRITAIN AND DOMINIONS
WILL HAVE SIX DELEGATES;
THREE FROM DOMINIONS**

(By United Press.)
Melbourne, Australia, Oct. 7.—Premier David Lloyd George has cabled to Ambassador Geddes at Washington stating definitely that he can not attend the forthcoming conference on limitation of armaments. Premier Hughes of Australia read the cable in the house of representatives today. Hughes announced that Arthur James Balfour and Lord Lee would be two of the British delegates to Washington, and that Minister of Defense George Foster Pearce would represent Australia. A third delegate from the British Isles has been named but has not been accepted.

In all there will be six British representatives at the arms conference, three of these from dominions. The decision to have dominion representation at Washington was received with great enthusiasm by Australia since the bitterness caused by "America slamming the door" upon separate representation. Australia is in a measure removed by this action of the British government.

Hughes gave no indication of who the other dominion representative would be. Pearce will represent New Zealand as well as Australia.

Telegrams from Lloyd George urging it would be most desirable to have Australia represented here, were read by Hughes. One suggested the Australian premier himself attend. Hughes declared this impossible, but announced the appointment of Pearce. A member demanded why Australia did not have separate representation. "All dominions endeavored to secure this," Hughes said, "until America finally slammed the door."

TORTURE OF BOYS CHARGED TO NEGRO

**ONE KILLED, SECOND THROWN IN
BOILING WATER, CHICAGO
POLICE CHARGE**

Chicago, Oct. 6.—Fleishid tortures of children were charged against Roy Butler, Negro, arrested here today. Butler killed one child three years ago. Rena Coleman, with whom the man had been living, told police.

The woman stated Butler objected to having her four children around. She charged he killed 3 year old Harold Coleman by beating him and allowing him to fall from a chair so that he fractured his skull.

Harvey Coleman, aged 7, was taken to Cook county hospital suffering from terrible injuries resulting from the alleged torture of Butler. Butler was taken into custody by the janitor, was taken into custody by the Warren ave. police when neighbors discovered the boy's plight.

Harvey today lies at the point of death. Should he recover, he will be disfigured for life, physicians say.

Butler, the authorities declare, poured liniment on the boy's hands and then placed them in a red hot oven. Not content with this, police say he threw the child into a caldron of boiling water.

Cool and Cloudless Weather
New York, Oct. 7.—The third day of the world series dawned cool and cloudless. The weather bureau promised "increasing cloudiness."

PROGRESSIVES FORCE RADICAL CHANGES IN TAX REVISION BILL

**WITH THE APPROVAL OF THE
PRESIDENT PASSAGE OF BILL
ASSURED**

(By United Press.)
Washington, Oct. 7.—Sweeping amendments demanded by republican progressives in the senate today were being written into the Fordney-Penrose tax revision bill.

With President Harding's approval on the radical changes, the reluctant acquiescence of the "old guard" and the support of the agricultural "bloc" the passage of the compromise measure was assured.

The main changes are:
1. Increase of maximum surtax rates from 32 to 50 per cent.
2. Repeal of the taxes on freight, passenger and pullman charges.
3. Repeal of the \$2,000 exemption tax of corporations estimated to yield \$60,000,000 additional revenue.
4. Retention of the capital stock tax estimated to yield \$75,000,000.
5. Repeal of all "nuisance" taxes, such as those on soft drinks and medicine.
6. Increase maximum rates on estate taxes from 25 to 40 per cent on estates above \$100,000,000.

There is still a discussion on the fifteen per cent corporate income tax. Some leaders urged the present ten per cent rate for the graduate scale on incomes above \$50,000,000.

The question of one cent increase on first class postage is still unsettled. The Smoot sales tax proposal was definitely rejected.

PEAT BOGS WILL SUPPLY FUEL FOR THE WHOLE STATE

**AN INVESTIGATION COMMITTEE
OF ST. PAUL ANNOUNCES SEVEN
BILLION TONS AVAILABLE**

(By United Press.)

St. Paul, Oct. 7.—Representatives of the St. Paul business men last night said that the development of the great peat bogs in Carlton county at Corona would mean millions of dollars to Minnesota. Minnesota's vast acreage of peat which is more than half of the 20,000,000 in the United States, will provide the basis for fuel for domestic and industrial use within the next few years, they said.

The marketing quantity of peat in the state is placed at 7,000,000,000 tons and the fuel is now made at the cost of \$5 per ton, saving the people of Minnesota thousands of dollars annually.

The development will give Minnesota an independent fuel supply the investigators say.

Notorious Minneapolis Dive Owner Sentenced

Minneapolis, Oct. 7.—Upon Mike Weisman, who has maintained his liberty during the last three years despite prosecution in state and federal court, descended a second penitentiary sentence today.

Weisman was sentenced today by Judge Albert Johnson, before whom he was convicted of maintaining a vice resort in the Gateway district, to an indeterminate term of from one to seven years of hard labor at the Stillwater penitentiary.

White Socks Game Postponed

(By United Press.)
Chicago, Oct. 7.—The third game of the White Sox-Cubs city series was postponed today because of wet grounds.

Brainerd is a good town, in fact it's one of the best towns in the whole United States. It has the distinction of being in the white spot of commercial maps. There are only four such. If you don't think this town is coming ahead, we just refer you to the front page stories of recent Brainerd Dispatch records of local news.

October 3—The Northwest Paper Co. resumes work.

October 4—Farmers Cooperative Creamery record. Unparalleled growth is recorded, more butter being made in nine months of 1921 than in either the years of 1919 or 1920.

October 5—Locomotive side of the shops on 6 days a week. This means an addition of \$15,000 to October's pay roll, affecting 715 men.

October 7—Tie plant resumes work Monday.

We doubt if any town the size of Brainerd can show such a record of achievements.

NEW ENGINES OF WAR TRIED BEFORE HIGH OFFICERS OF SERVICE

**GUNS, BOMBS AND OTHER IMPLE-
MENTS OF WARFARE TRIED
MORE DESTRUCTIBLE
THAN IN LATE WAR**

(By United Press.)

Aberdeen, Md., Oct. 7.—New and improved engines of war today turned the Aberdeen proving ground into a veritable battlefield of red wrath. There were shocking concussion and bitter acid palls of gas and smoke.

To the known terror of war were added the 35 mile gun which hurled 16 inch projectiles; airplane bombs weighing from 2,000 to 4,000 pounds; machine guns spitting bullets 2,000 feet farther than the Browning gun used to during the war; powder that makes no flash; one man tanks that crawl or swim; new principles in anti-air attacks and other weapons designed to make war more destructible than ever before.

The test at the proving grounds was watched by high army and navy officers, civilians famous in the world of ordnance manufacture and distinguished characters of international notability.

Leading them is a 16 inch fifteen caliber gun which throws 2400 pound projectiles forty-five miles.

12 YEAR OLD GIRL STABBED TO DEATH

**BODY WAS FOUND IN WOODS BY
SEARCHERS AFTER CHILD
FAILED TO RETURN
FROM SCHOOL**

(By United Press.)

Madison, N. J., Oct. 7.—The body of Janet Lawrence, twelve year old Madison girl, was found lying against a log in Kluxen woods early today. She had been stabbed to death, apparently by a maniac.

When the little girl failed to return home after school yesterday a search was made and her body found after an all night hunt through the woods. A handkerchief was fastened tightly around the girl's neck. There were 25 stab wounds on her body.

Persons in the neighborhood told police they had heard no screams. There was no clue to the identity of the murdered. It was said that a blond haired boy about 17 years old had been seen near the scene. No one has been found who saw the child after she left school and started for home.

The body was hidden behind a log. It seemed that the murderer had carefully hidden it only a few feet from the sidewalk but not in sight of any one passing.

(By United Press.)

San Francisco, Oct. 7.—Roscoe Arbuckle was scheduled to appear in superior court today and plead to a charge of manslaughter in connection with the death of Virginia Rappe following a party in Arbuckle's hotel rooms.

The big comedian has left Los Angeles and was expected to arrive here just in time to enter court.

McGILL FINED \$200 FOR SHIPPING LIQUOR

Minneapolis, Minn., Oct. 7.—T. J. McGill, vice president of the Minneapolis Street Railway company, was fined \$200 today by Judge Wilbur F. Booth in United States district court after he had pleaded guilty to a charge of transporting liquor.

Alfred Jaques, United States district attorney, asked Judge Booth to impose the maximum sentence because of the "defendant's education and skill," and because of the quantity of liquor shipped. Judge Booth interposed that the quantity had nothing to do with the violation except that it increased the confiscation.

Federal prohibition agents Sept. 7 seized liquor which Mr. McGill shipped from Chicago to Minneapolis in barrels labeled household goods.

Extremists Perpetuate Outrages in Ireland

Dublin, Oct. 7.—Extremists seeking to prevent peaceful solution of the Irish problem by the peace conference scheduled for tomorrow in London, today continued outrages which is making this week's casualty list almost like that of the pre-armistice period.

Armed and masked men claiming to be members of the Irish republican army entered a number of houses in Phurles during the night. They attacked and seriously injured a number of young men of the town who were not especially identified with politics. Many of the victims were left lying unconscious and several were reported as likely to die today. There was no trace of the intruders.

Appeals have been made by West Brainerd for water service, for additional electric light service, etc. The Riverside school of West Brainerd is one of the imposing buildings of that part of Brainerd.

HALF BILLION AMERICAN DOLLARS INVESTOR IN MARKS

(By United Press.)

New York, Oct. 7.—Americans have invested half a billion dollars in German marks, according to authoritative information here today.

Should the German currency ever reach its pre war value of 24 cents a new crop of American millionaires would be created from the investors. Unless steps are taken to stabilize the marks however, bankers say that these dreams of millions may be shattered and investors may have losses instead of gains.

GEORGIA BANK PRESIDENT KILLED

(By United Press.)

Conyers, Ga., Oct. 7.—The body of C. E. Reagin, bank president, was found at the bottom of Yellow river today.

Fishermen discovered the body 200 yards below the bridge upon which Reagin is believed to have been attacked. The body had lodged in the line and upon holding up the line for examination the body was seen.

St. Paul, Oct. 7.—Representatives of the St. Paul business men last night said that the development of the great peat bogs in Carlton county at Corona would mean millions of dollars to Minnesota. Minnesota's vast acreage of peat which is more than half of the 20,000,000 in the United States, will provide the basis for fuel for domestic and industrial use within the next few years, they said.

The marketing quantity of peat in the state is placed at 7,000,000,000 tons and the fuel is now made at the cost of \$5 per ton, saving the people of Minnesota thousands of dollars annually.

The development will give Minnesota an independent fuel supply the investigators say.

White Socks Game Postponed

(By United Press.)

Chicago, Oct. 7.—The third game of the White Sox-Cubs city series was postponed today because of wet grounds.

Brainerd is a good town, in fact it's one of the best towns in the whole United States. It has the distinction of being in the white spot of commercial maps. There are only four such

If you don't think this town is coming ahead, we just refer you to the front page stories of recent Brainerd Dispatch records of local news.

October 3—The Northwest Paper Co. resumes work.

October 4—Farmers Cooperative Creamery record. Unparalleled growth is recorded, more butter being made in nine months of 1921 than in either the years of 1919 or 1920.

October 5—Locomotive side of the shops on 6 days a week. This means an addition of \$15,000 to October's pay roll, affecting 715 men.

October 7—Tie plant resumes work Monday.

We doubt if any town the size of Brainerd can show such a record of achievements.

NEW ENGINES OF WAR TRIED BEFORE HIGH OFFICERS OF SERVICE

**GUNS, BOMBS AND OTHER IMPLE-
MENTS OF WARFARE TRIED
MORE DESTRUCTIBLE
THAN IN LATE WAR**

(By United Press.)

Aberdeen, Md., Oct. 7.—New and improved engines of war today turned the Aberdeen proving ground into a veritable battlefield of red wrath. There were shocking concussions and bitter acid palls of gas and smoke.

To the known terror of war were added the 35 mile gun which hurled 16 inch projectiles; airplane bombs weighing from 2,000 to 4,000 pounds; machine guns spitting bullets 2,000 feet farther than the Browning gun used to during the war; powder that makes no flash; one man tanks that crawl or swim; new principles in anti-air attacks and other weapons designed to make war more destructible than ever before.

The test at the proving grounds was watched by high army and navy officers, civilians famous in the world of ordnance manufacture and distinguished characters of international notability.

Leading them is a 16 inch fifteen caliber gun which throws 2400 pound projectiles forty-five miles.

12 YEAR OLD GIRL STABBED TO DEATH

**BODY WAS FOUND IN WOODS BY
SEARCHERS AFTER CHILD
FAILED TO RETURN
FROM SCHOOL**

(By United Press.)

Madison, N. J., Oct. 7.—The body of Janet Lawrence, twelve year old Madison girl, was found lying against a log in Kluxen woods early today. She had been stabbed to death, apparently by a maniac.

When the little girl failed to return home after school yesterday a search was made and her body found after an all night hunt through the woods. A handkerchief was fastened tightly around the girl's neck. There were 25 stab wounds on her body.

Persons in the neighborhood told police they had heard no screams. There was no clue to the identity of the murderer. It was said that a blond haired boy about 17 years old had been seen near the scene. No one has been found who saw the child after she left school and started for home.

The body was hidden behind a log. It seemed that the murderer had carefully hidden it only a few feet from the sidewalk but not in sight of anyone passing.

(By United Press.)

San Francisco, Oct. 7.—Roscoe Arbuckle was scheduled to appear in superior court today and plead to a charge of manslaughter in connection with the death of Virginia Rappe following a party in Arbuckle's hotel rooms.

The big comedian has left Los Angeles and was expected to arrive here just in time to enter court.

McGILL FINED \$200 FOR SHIPPING LIQUOR

Minneapolis, Minn., Oct. 7.—T. J. McGill, vice president of the Minneapolis Street Railway company, was fined \$200 today by Judge Wilbur F. Booth in United States district court after he had pleaded guilty to a charge of transporting liquor.

Alfred Jaques, United States district attorney, asked Judge Booth to impose the maximum sentence because of the "defendant's education and skill," and because of the quantity of liquor shipped. Judge Booth interposed that the quantity had nothing to do with the violation except that it increased the confiscation.

Federal prohibition agents Sept. 7 seized liquor which Mr. McGill shipped from Chicago to Minneapolis in barrels labeled household goods.

Extremists Perpetuate Outrages in Ireland

Dublin, Oct. 7.—Extremists seeking to prevent peaceful solution of the Irish problem by the peace conference scheduled for tomorrow in London, today continued outrages which is making this week's casualty list almost like that of the pre-armistice period.

Armed and masked men claiming to be members of the Irish republican army entered a number of houses in Phurles during the night. They attacked and seriously injured a number of young men of the town who were not especially identified with politics. Many of the victims were left lying unconscious and several were reported as likely to die today. There was no trace of the intruders.

Reduction of Freight Rates Provided by Resolution in House

ABOUT 3,000 TIES TREATED
WITH CREOSOTE**

**THE MATERIAL ON HAND TO BE
TREATED INSURES AN EIGHT
MONTHS' RUN**

The Northern Pacific railway tie treating plant will resume work on Monday, giving employment to a crew of from 40 to 50 men. Practically all the men of the organization will be back to work. The plant has been idle since April 1.

The daily output of ties treated with creosote is 3,000. Material on hand to be treated, including ties, switch ties, bridge material, tie plugs, etc., insures a steady run of eight months.

Levi Johnson is superintendent of the tie plant. G. H. Stone is foreman, Carl Anderson engineer and electrician, Bert Edwards treating engineer, Frank Roberts motorman, Seymour Clark boiling and adzing machine operator, C. D. Clark helper. Other workers are the firemen, laborers, tie handlers, etc.

The tie plant is the big industry in West Brainerd and the resumption of work will give that section of this city of Brainerd a great impetus. Appeals have been made by West Brainerd for water service, for additional electric light service, etc. The Riverside school of West Brainerd is one of the imposing buildings of that part of Brainerd.

HALF BILLION AMERICAN DOLLARS INVESTOR IN MARKS

(By United Press.)

New York, Oct. 7.—Americans have invested half a billion dollars in German marks, according to authoritative information here today.

Should the German currency ever reach its pre war value of 24 cents a new crop of American millionaires would be created from the investors. Unless steps are taken to stabilize the marks however, bankers say that these dreams of millions may be shattered and investors may have losses instead of gains.

GEORGIA BANK PRESIDENT KILLED

(By United Press.)

Conyers, Ga., Oct. 7.—The body of C. E. Reagan, bank president, was found at the bottom of Yellow river today.

Robbery is believed by authorities to have been the motive for his murder. Searchers who searched all night failed to find the body. Fishermen discovered the body 200 yards below the bridge upon which Reagan is believed to have been attacked. The body had lodged in the line and upon holding up the line for examination the body was seen.

VETERANS TO SETTLE CLAIMS

Disabled veterans who will have an opportunity to place their claims directly with officials of the Veterans Bureau when the Clean Up Squad visits Brainerd, are advised to bring abundant proof either of disability, the need for additional compensation or for re-education, to headquarters, the Court House, Brainerd, on October 10, and 11.

"Don't come to the squad empty handed" is the plea which comes from local Red Cross headquarters. Workers from that organization, together with the American Legion, are co-operating with the government in this attempt to get speedy action for the hundreds of ex-service men whose claims are in the process of adjudication as well as to find the isolated cases of men not informed as to the help they are entitled to from the government.

Other suggestions from Red Cross headquarters to men whose claims have not been satisfactorily adjusted include:

Bring your discharge papers and all communications received from the Federal Board and the Bureau of War Risk.

The greater majority of ex-service men now filing claims for compensation have been discharged from service for nearly two years. In order to establish their claims, additional medical evidence may be required. Bring written statements from all doctors who have treated you since

discharge and from hospitals where you were confined (unless these were U. S. P. H. S.).

FRIDAY, OCTOBER 7, 1921

EDGAR ALLEN POE

This day marks the seventy-second anniversary of the death of Edgar Allan Poe. If the poet is aware of mundane affairs he must be pleased to find that, at length, there has been reared to his memory a lasting and appropriate memorial; more pleased, perhaps, because the city in which he passed so many years of his life offers this tribute to his genius.

Mrs. Archer Jones took her first inspiration for the erection of "The Edgar Allan Poe Shrine," at Richmond, Virginia, from Poe's own well known lines:

"Thou wast that all to me, love,

For which my soul did pine—

A green isle in the sea, love,

A fountain and a shrine,

All wreathed with fairy fruits and flowers,

And all the flowers were mine."

She worked with the Poe Memorial Trustees, using building material from the Southern Literary Messenger building, the Ellis and Allan storehouse, where Poe was once employed, and the house in which Poe's mother died in Richmond. In the Poe district on Main Street, the "Old Stone House," the oldest structure in Richmond, was restored and a "Poe Pergola" erected. A garden has been designed there to perpetuate the idea of Poe's "Enchanted Garden," once located in Richmond. It is indeed a "green isle in the sea" of commerce surrounding it. The fountain with its gently playing stream framed by

the arch of the shrine, makes this enchanted garden seem like a dream come true. Ample room has been arranged for the preservation of Poe's relics, and first editions of his works and manuscripts.

The Shrine will now be opened to the public, after an expenditure of something like \$18,000, which has been most generously advanced by the founders.

WAGES HIGHER—LIVING CHEAPER

Workingmen who are disposed to complain of the reductions of wages throughout the country, which are found necessary in the general movement to return to normalcy, may not know that the cost of living in the United States is lower than in any country in the world, while wages here, despite reductions, still are much higher than anywhere else, according to data collected by the Federal Reserve board. Food, shelter, clothing, and other necessities and many comforts and luxuries now are within the reach of residents of this country at far lower costs than in any other country.

Prices of practically all commodities are at very low levels here compared with other countries. The general level of wholesale prices throughout the United States now is approximately 41 per cent above the level of the pre-war period. But in other countries, according to the reports of the Federal Reserve board, wholesale levels are over 200 per cent above the pre-war period in France, Italy and Germany, 100 per cent in England, and from 60 per cent to 150 per cent in other countries. In fact, prices are 100 per cent or over above pre-war prices in all European countries.

The workingmen of the United States thus are obtaining all the comforts of life and many of the luxuries at prices that are prohibitive to a majority of the residents of England, France, Germany, Italy and other countries. That the United States is the cheapest country in the world in which to live, the reports show beyond question.

CARICATURE THE CLERGY

It is a very common thing, both in the spoken drama and in the "movies," to caricature ministers of the gospel; just why, we never could understand. Such characters are never seen in real life, and they certainly cannot be said

to be funny. These pictures are an insult not only to the ministers themselves, but to all church-going people, and they are an insult to the intelligence of the public. The Mankato Free Press makes some very sensible comments upon this blemish on the dramatic profession which we here reproduce:

The frequent caricaturing of ministers of the gospel by film makers is as uncalled for as it is insulting. These belittling characterizations may appeal to the low-brow, but they are certainly frowned on by those patrons of the movies who have a high regard for the decencies of life and do not wish to have flaunted in their faces pictures that contain disagreeable features, and which are shocking to their finer sensibilities.

Men who preach the gospel of the Lord are entitled to a large measure of respect.

FARMER AGENCY SETS RECORD

An official statement sent by the American Farm Bureau Federation to county farm bureau officers declares that the co-operative livestock selling agency established at the South St. Paul market, with the backing of the Minnesota Farm Bureau, has made a record "never before approached in the history of livestock marketing by farmers." The figures show that the Central Co-Operative Commission Association has handled as high as 29 per cent of the business on the market in one day. During its first seven weeks of business it handled 60,165 head of stock, and its nearest competitor handled only 24,307 head in the same period.

Livestock producers are given an opportunity of building up their own marketing agency on efficient standards, by assembling a large volume of stock of various classes, as the manager points out, giving the buyer an opportunity to purchase in large quantities, and making it possible to supply the outside buyer direct from the farm.

A special committee of the Chamber of Commerce of the United States, just returned from a nextended trip through Europe, in its report expresses its conviction that armed conflicts now in progress, and the continued threat of renewed clashes, present the chief obstacle to business conditions returned from an extended trip world.

AMUSEMENTS

Harold Goodwin Here in New Fox Picture

On today and Saturday at the Lyceum theatre, will be presented here for the first time a William Fox picture entitled "Hearts of Youth," based upon Mrs. D. E. N. Southworth's novel "Ishmael" and starring the youthful Harold Goodwin. All of Mrs. Southworth's novels—and she wrote more than sixty—were melodramatic in plot and incident. The Fox photoplay is said to transfer admirably to the screen the strength of the original narrative. Young Goodwin has been most favorably received wherever he has appeared in this picture.

Lillian Hall, whose beauty and talent are familiar to film followers, figures as Mr. Goodwin's leading woman. Millard Webb both wrote the scenario and directed the picture. "Hearts of Youth" will remain at the Lyceum for two days.

Initiation Into Criminal Society Shown on Screen

Initiations into fraternal societies are hard on the candidate for membership, but there are other organizations—those of the underworld—which require actual risks of life, to show whether the man has the stamina and nerve required.

Such tests, following confessions made to the police, are shown with startling effect in the fourth episode of "Fighting Fate," to be shown at the Lyceum theatre tonight and Saturday. William Duncan, as a "steel pigeon," is seeking to join the notorious Black Circle gang. The ordeal he is forced to undergo provides more gasps of suspense and horror than anything the star has done recently.

At the New Park Today

Tom Moore, smiling, genial and Irish, promises to delight the patrons of the New Park theatre when he is presented today in his latest production, "Made in Heaven." The story concerns itself with the rise of a "greenhorn," who becomes a fireman in New York, to a position of affluence and power. Tom Moore's clever impersonation of a young Irishman will be remembered by those who saw him in "Hold Your Horses." In his latest photoplay, he is again a city servant, but this time it is a fireman. Of course, the hero saves the

heroine, in this case, beautiful Helene Chadwick, from all sorts of embarrassing situations. But she is blue-blooded, petulant and charming. There are complications, too, a rich suitor, a matchmaking friend, the hero's poverty and the heroine's inability to make up her mind to marry at all. However, our heroic fireman solves them all in due time, in his own naturally humorous way.

The Goldwyn company has surrounded Mr. Moore with an exceptionally able cast which includes, besides Helene Chadwick, Molly Malone, Kate Lester, Rene Adoree, Al Filson, Freeman Wood and John Cossar. Victor Schertzinger directed the picture, while the artistic settings were made by Cedric Gibbons.

EDGAR ALLEN POE

This day marks the seventy-second anniversary of the death of Edgar Allan Poe. If the poet is aware of mundane affairs he must be pleased to find that, at length, there has been reared to his memory a lasting and appropriate memorial; more pleased, perhaps, because the city in which he passed so many years of his life offers this tribute to his genius.

Mrs. Archer Jones took her first inspiration for the erection of "The Edgar Allan Poe Shrine," at Richmond, Virginia, from Poe's own well known lines:

"Thou wast that all to me, love,
For which my soul did pine—
A green isle in the sea, love,
A fountain and a shrine,
All wreathed with fairy fruits and flowers,
And all the flowers were mine."

She worked with the Poe Memorial Trustees, using building material from the Southern Literary Messenger building, the Ellis and Allan storehouse, where Poe was once employed, and the house in which Poe's mother died in Richmond. In the Poe district on Main Street, the "Old Stone House," the oldest structure in Richmond, was restored and a "Poe Pergola" erected. A garden has been designed there to perpetuate the idea of Poe's "Enchanted Garden," once located in Richmond. It is indeed a "green isle in the sea" of commerce surrounding it. The fountain with its gently playing stream framed by

the arch of the shrine, makes this enchanted garden seem like a dream come true. Ample room has been arranged for the preservation of Poe's relics, and first editions of his works and manuscripts.

The Shrine will now be opened to the public, after an expenditure of something like \$18,000, which has been most generously advanced by the founders.

WAGES HIGHER—LIVING CHEAPER

Workingmen who are disposed to complain of the reductions of wages throughout the country, which are found necessary in the general movement to return to normalcy, may not know that the cost of living in the United States is lower than in any country in the world, while wages here, despite reductions, still are much higher than anywhere else, according to data collected by the Federal Reserve board. Food, shelter, clothing, and other necessities and many comforts and luxuries now are within the reach of residents of this country at far lower costs than in any other country.

Prices of practically all commodities are at very low levels here compared with other countries. The general level of wholesale prices throughout the United States now is approximately 41 per cent above the level of the pre-war period. But in other countries, according to the reports of the Federal Reserve board, wholesale levels are over 200 per cent above the pre-war period in France, Italy and Germany, 100 per cent in England, and from 60 per cent to 150 per cent in other countries. In fact, prices are 100 per cent or over above pre-war prices in all European countries.

The workingmen of the United States thus are obtaining all the comforts of life and many of the luxuries at prices that are prohibitive to a majority of the residents of England, France, Germany, Italy and other countries. That the United States is the cheapest country in the world in which to live, the reports show beyond question.

CARICATURED THE CLERGY

It is a very common thing, both in the spoken drama and in the "movies," to caricature ministers of the gospel; just why, we never could understand. Such characters are never seen in real life, and they certainly cannot be said

to be funny. These pictures are an insult not only to the ministers themselves, but to all church-going people, and they are an insult to the intelligence of the public. The Mankato Free Press makes some very sensible comments upon this blemish on the dramatic profession which we here reproduce:

The frequent caricaturing of ministers of the gospel by film makers is as uncalled for as it is insulting. These belittling characterizations may appeal to the low-brow, but they are certainly frowned on by those patrons of the movies who have a high regard for the decencies of life and do not wish to have flouted in their faces pictures that contain disagreeable features, and which are shocking to their finer sensibilities.

Men who preach the gospel of the Lord are entitled to a large measure of respect.

FARMER AGENCY SETS RECORD

An official statement sent by the American Farm Bureau Federation to county farm bureau officers declares that the co-operative livestock selling agency established at the South St. Paul market, with the backing of the Minnesota Farm Bureau, has made a record "never before approached in the history of livestock marketing by farmers." The figures show that the Central Co-operative Commission Association has handled, as high as 29 per cent of the business on the market in one day. During its first seven weeks of business it handled 60,165 head of stock, and its nearest competitor handled only 24,307 head in the same period.

Livestock producers are given an opportunity of building up their own marketing agency on efficient standards, by assembling a large volume of stock of various classes, as the manager points out, giving the buyer an opportunity to purchase in large quantities, and making it possible to supply the outside buyer direct from the farm.

A special committee of the Chamber of Commerce of the United States, just returned from a nextended trip through Europe, in its report expresses its conviction that armed conflicts now in progress, and the continued threat of renewed clashes, present the chief obstacle to business conditions returned from an extended trip world.

AMUSEMENTS

Harold Goodwin Here in New Fox Picture

On today and Saturday at the Lyceum theatre, will be presented here for the first time a William Fox picture entitled "Hearts of Youth," based upon Mrs. D. E. N. Southworth's novel "Ishmael" and starring the youthful Harold Goodwin. All of Mrs. Southworth's novels—and she wrote more than sixty—were melodramatic in plot and incident. The Fox photoplay is said to transfer admirably to the screen the strength of the original narrative. Young Goodwin has been most favorably received wherever he has appeared in this picture.

Lillian Hall, whose beauty and talent are familiar to film followers, figures as Mr. Goodwin's leading woman. Millard Webb both wrote the scenario and directed the picture. "Hearts of Youth" will remain at the Lyceum for two days.

Initiation Into Criminal Society Shown on Screen

Initiations into fraternal societies are hard on the candidate for membership, but there are other organizations—those of the underworld—which require actual risks of life, to show whether the man has the stamina and nerve required.

Such tests, following confessions made to the police, are shown with startling effect in the fourth episode of "Fighting Fate," to be shown at the Lyceum theatre tonight and Saturday. William Duncan, as a "steel pigeon," is seeking to join the notorious Black Circle gang. The ordeal he is forced to undergo provides more gasps of suspense and horror than anything the star has done recently.

At the New Park To-day

Tom Moore, smiling, genial and Irish, promises to delight the patrons of the New Park theatre when he is presented today in his latest production, "Made in Heaven." The story concerns itself with the rise of a "greenhorn," who becomes a fireman in New York, to a position of affluence and power. Tom Moore's clever impersonation of a young Irishman will be remembered by those who saw him in "Hold Your Horses." In his latest photoplay, he is again a city servant, but this time it is a fireman. Of course, the hero saves the

heroine, in this case, beautiful Helene Chadwick, from all sorts of embarrassing situations. But she is blue-blooded, petulant and charming. There are complications, too, a rich suitor, a matchmaking friend, the hero's poverty and the heroine's inability to make up her mind to marry at all. However, our heroic fireman solves them all in due time, in his own naturally humorous way.

The Goldwyn company has surrounded Mr. Moore with an exceptionally able cast which includes, besides Helene Chadwick, Molly Malone, Kate Lester, Rene Adoree, Al Filson, Freeman Wood and John Cossar. Victor Schertzinger directed the picture, while the artistic settings were made by Cedric Gibbons.

BOWLING

is not a spectators game and bowlers are proud of it. Very few people would go across the street to see a public bowling contest. But thousands will travel miles to actually participate in the game. One great lack in our American athletic system is that it is largely 100 per cent onlookers and almost 0 per cent actual participants. But in bowling the 100 per cent are players who get the benefits of the physical exercise and the 0 per cent fans.

The athlete competes and grows stronger; the weakling looks on and grows weaker.

ARGUMENT FOR RE-DISTRICTING

Crosby Commercial Club Presented Resolution Signed by Directors to County Board

THEIR IDEA OF DISTRICTING

Resolution to be Considered by Board at Special Meeting Saturday, October 8

In order to influence as early action as possible on the important matter of re-districting of the Commissioner districts of the county, the Crosby Commercial club presented to the County Board at its regular meeting October 1, a resolution signed by its directors calling in the county commissioners to take the necessary steps for redistricting in accordance with the Minnesota Statutes, says the Ironton News.

The Commissioners have called a special meeting of the Board for Saturday, October 3, at Brainerd, to consider the resolution. It is anticipated that they will at that time take steps to publish their intention of redistricting the county and that final action will be taken at the regular meeting, November 5, or at some special meeting prior to that date.

BOWLING

is not a spectators game and bowlers are proud of it. Very few people would go across the street to see a public bowling contest. But thousands will travel miles to actually participate in the game. One great lack in our American athletic system is that it is largely 100 per cent onlookers and almost 0 per cent actual participants. But in bowling the 100 per cent are players who get the benefits of the physical exercise and the 0 per cent fans.

The athlete competes and grows stronger; the weakling looks on and grows weaker.

A dispensation is to be secured permitting Brainerd lodge to initiate the range class at either the Ironton village hall or the Crosby armory the latter part of November.

Brainerd lodge, by a rising vote, expressed its thanks and appreciation of the activity of the range members. Officers, members, every Elk within 50 miles of the range will make it a point to attend this initiation. The full ceremony will be put on, every bit of paraphernalia used. The inner man will not be overlooked. The entertainment committee will see to that.

"There are on the iron range some twenty or more Elks not affiliated with our lodge," said Mr. Marsh, "and we shall have a special committee to get these men to transfer. Their influence, their ability to do things for Elkdom are needed. We have on the range men who hold membership in Duluth, Superior, Wis., Escanaba, Mich., and many other lodges and they should affiliate with the jurisdiction where they make their home." Louis Bauer gave a spirited talk and told how the Elks on the range have not lost their pep. They are willing to work for the best interest of the lodge and they want a full attendance at Tuesday, October 11 smoker. He said "Larry Ho" Hodgson had promised to attend the range class initiation and do his share to put pep into it.

NINTH INNING
Not received in detail.

Dope on Today's Game
New York, Oct. 7.—Heads up, feet stepping high, Miller Huggins and his Yankees have briskly into the third stage of the world series journey today.

Wabbling on weary legs the Giants of John McGraw beat a little discontented tap with two games in the arrears.

Within seven of the end and heavy hitters hitless in two games; with the plate untouched in eighteen innings and with two of the best pitchers beaten, the Giants bore nothing in their demeanor to pick up: "We are not discouraged."

The great form shown by the Yankee pitchers, the impregnable defense of an infield that has not wobbled, and the wild running on bases that completely surprised the Giants, has made the Yankees three to one favorites in betting.

The great reception that the American league champions received when they appeared in the first two games had a very visible effect to flatten the spirit of the Giants. They must have felt they were on an enemy's field instead of within confines of their own home.

The backs of the Giants are flat against the wall today. One more victory for the Yankees will make their cause more hopeless. The fighting spirit which brought McGraw's tribe to victory in the National league with Pittsburgh seems to have been

crushed. Compared with the vim of the Yankees play, the Giants looked like they were "dogging it."

GERMAN CRESUS IS

Berlin, Oct. 6.—Accused of cheating the German war department out of millions of marks by not paying war prisoners their full wages, Hugo Stinnes & Co., faced criminal trial at Essen today.

This case is the first official attention to numerous charges, many of them made openly by socialists in the reichstag, that Hugo Stinnes was Germany's greatest war profiteer, that he sold war materials to both sides through his affiliations in neutral countries, and that, in his official capacity during the war, he systematically ordered destruction of certain Belgian and French industries for no other reasons than to prevent reconstruction of these rival industries after the war.

It is believed that enormous legal consequences will result from the Essen trial. If the test case is successful, the war department hopes to recover many millions. H. Stinnes is the richest man in Germany today, controlling coal mines, shipping and industries of all kinds.

SHE REFUSED HIM

"I was engaged to the prettiest little dool in Indiana, but my stomach and liver trouble had made me so grouchy that she broke it off. I tried all kinds of medicine and doctors and got no relief. The gas blew me up like a porcupine and I had awful colic attacks. Finally I heard of Mayr's Wonderful Remedy and it has certainly fixed me up fine. I am now as well as ever." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists. Adv.
